1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 22, 23, 25, and 28-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicants do not appear to have clearly related the sidewall sections of claims 22 to the sidewall of claim 21 making the sidewall sections appear to be double inclusions of the sidewall of claim 21. Therefore it is suggested that applicant replace "with" after "configuration" on line 2 of claim 22, with an expression such as "and the sidewall consists of" before "two opposed...".

Since sidewall sections are set forth in claim 22, it appears that claim 28 should be dependent from claim 22 rather than claim 21. Furthermore it appears that "at least three sidewall sections" in claim 28 should be at least three "of said" sidewall sections to relate back to those set forth in claim 22.

In like manner, it appears that "a relatively smaller sidewall section" on line 2 of each of claims 29-31 should be "one of said" relatively sidewall sections to clearly relate back to the smaller sidewall sections in claim 22.

Similarly, it appears that "said" should be inserted before "two relatively larger sidewall sections" on line 2 of claim 32.

2. Claims 21, 24, 26 and 27 are allowed while claims 1-20 have been canceled.

Art Unit: 3727

3. Claims 22, 23, 25 and 28-34 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. Applicant's arguments, see page 7 of the amendment, filed 6/8/05, with respect to objection to the title have been fully considered and are persuasive. The objection of the title has been withdrawn.
5. Applicant's arguments with respect to claims 22, 23, 25 and 28-34 have been considered but are moot in view of the new ground(s) of rejection.
6. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a).
